Over the past 15 years we have seen a lot of groups splinter off from Scientology and beat the drum for some off beat use of the technology. We call them "squirrels" because they are so nutty. They come and they go. We're still here and will continue to be.

A vast body of technology such can give birth to a thousand "new do it. There are close to a half a billion Archives at Saint Hill, enough to suit it.

The latest squirrels are a group in England who was sacked for homosexuality joined by an American who was once deported for 2nd Dynamic reasons and who ran off from his wife and children to join the band, this group is having a rough time of it.

Internal dissension is what tears these splinter groups apart. Formed by people whose overt acts against Scientology prevent case gain, they rapidly rip one another to pieces.

"Ron Howes" was an early end from the Wichita Dianetic Foundation and then his companions so involved and today is reported as a Catholic dispersed, never to be heard from again.

There was once an "E-Therapy" example in Dianetics Evolution of a fellow Kitzelman. They had people to do, so avoided auditing and spun things we've had to "Amprinistics".

Over the past 15 years we have seen a lot of groups splinter off from Scientology and beat the drum for some off beat use of the technology. We call them "squirrels" because they are so nutty. They come and they go. We're still here and will continue to be.

The latest squirrels are a group headed by an ex-employee in England who was sacked for homosexuality and theft. Promptly joined by an American who was once deported for 2nd Dynamic reasons and who ran off from his wife and children to join the band, this group is having a rough time of it.

Internal dissension is what tears these splinter groups apart. Formed by people whose overt acts against Scientology prevent case gain, they rapidly rip one another to pieces.

fellows whose records include homosexuality and theft to start up a fuss with 1 1/2 year old technology is a bit thick.

They are quite violent on the subject of ethics as you ordinarily expect a criminal to be and are savage about organizations, having stolen money and lists from ours. They are being careful not to attack me publicly in the hopes people will think them noble and inspired. They're inspired all right - by the "buck". But we wish them no bad luck. We don't have to. It's punishment enough just to be themselves and live with what they are.

It's amusing how the group acts within itself. When Horner arrived in England he was supposed to be met with a big cheque so he could lecture all over the world. Of course he got no cheque. This particular auditor has run off to every splinter group that was ever formed and when they collapse, comes back head hanging, case unchanged and fortune in rags and ruin. He's been doing it for 15 years. A sort of Jonah! His because no HGC auditor has ever been auditing chair! His dream is total that avoids all his withholds.

Soon they'll have one another will be that.

For a splinter group to try to restoring all past releases and has Saint Hill is a tough break for them refuse them and anyone connected with for Classes and Grades V, VI, VII their use against people by suppress way to their personal progress as gless of amnesty or amends they ma the chances of such finding their own way are zero. A rather bad fate for the sake of a few quick "bucks" or pounds. For we could never trust them again with preclear's cases.

If you meet anyone going off to this group, list them with your Ethics Officer. They will never be given any upper level materials or training.

We don't really wish them any harm. We only hope they don't hurt too many when they crash.

Then I suppose we'll have to pick up the pieces.

We've been doing it for 15 years.

"O Man thou art a foolish beast. The way thou runnest about after gew-gaws, no wonder it took so long for somebody to find the way."

DATA

Amprinistics - Culled from 1951 Dianetics "dichotomies" pretends to be a Senior Scientology". In actual fact it is a low level self-audit calculated to spin people in with end words. As a suppressive action it seeks to make a virtue out of not being audited thus barring the road. It was probably dreamed up by Horner, not Harry Thompson.

Harry Thompson - At the bottom of the "Death Lessons" press scandal was Harry Thompson. He has several wives and many children and is sought by the police for abandonment. He has attacked HCO

Secretaries. He pretended to the press to be an "American doctor". He has no certificates or training. He is the subject of an Ethics Order as a Suppressive Person.

Edgar Watson - Was an early subject of Ethics. When investigated for no cause gain it turned out he had used a job at Saint Hill to embezzle money and used auditing to obtain subjects to satisfy homosexual appetites. He was quietly dismissed to save up the embarrassment of his being arrested for both crimes but was severely warned. He is a barber by profession, is poorly educated, has a permanent leg injury which does not heal. He is the subject of numerous pre-clear complaints about his squirrel auditing and the HCO Sec London traced all UK enturbulation to his group in 1963. He owes us a large amount of money.

Jack Horner - This ex-auditor has been a runaway to every splinter group ever formed. When they crash he comes back and begs forgiveness. He is heavily suppressive of pcs and has used any confidential data that came his way illegally. He has been the subject of a Comm Ev for abuse of materials and when saved by an

They do not have our mailing lists but have contacted only people whose addresses appeared in last years Auditors. By holding meetings in the vicinity of each Scientology organization they hope to recruit applicants.

Treatment - They are each fair game, can be sued or harassed. Horner can be barred out of any Commonwealth Country or England as he was the subject of a deportation order from England and his file has come alive again in the Home Secretary's Office. Harry Thompson's wives and victims are always looking for him to have him arrested. Watson is a set-up for arrest as a homosexual. Any meeting held by them should be torn up. The names of any persons attending should be collected and they should be labelled SP as they have left Scientology. These people are SP because they are seeking to avoid auditing and retain their withholds. Once labelled, these persons will not then be covered by amnesty and will never be admitted to further training or processing. Persons messing themselves up with Amprinistic self audit and restim should be refused any assistance. If these persons move into your area act through any agency you can to have them deported or arrested on whatever grounds. England is currently too hot for them so they may tour about. Horner's UK deportation order, Thompson's police record and Watson's homosexuality make them very vulnerable to deportation or arrest.

Their influence is far less than they pretend. They seem big (like any SP) because they sent literature to our org officers in an effort to suppress them. Their public reach is very tiny. Don't help it. Therefore this is our policy:

(1) Do not mention the name Amprinistics in public or in our magazines or issues.

(2) Harass these persons in

(3) Label publicly "ideas v

attending and issue SP orders on them and you'll have lost a lot of
