To look at the sad and gloomy world of Psychiatry  
And contrast it with the happy cheerful faces of Scientology  
To look at psychiatry's brutal hidden "treatments" of shock  
and surgery and death  
And contrast to these the simple conversation that is  
processing in Scientology  
And then for a psychiatrist to say  
"Scientology is potentially harmful"  
Must mean that Scientology is potentially harmful to the  
Dark Ages of Psychiatry.  
One can see the viewpoint.  
If Scientology totally succeeded, psychiatry would be no  
more.  
So it is potentially harmful - to psychiatry.  
No wonder the psychiatrist has wild things said in  
Parliaments.  
Poor chap. He's fighting for his life.
